**LINE-X® HONORED AS ONE OF GRACO'S 2014 TOP 20 DISTRIBUTORS**

– *LINE-X Continues to be the Nation's Leader in Spray-On Protective Coatings* –

**HUNTSVILLE, Ala.**, (March 17, 2015) - [LINE-X](#), North America's largest retail automotive aftermarket franchise and leading provider of high performance spray-on bedliners, is thrilled to announce it has been named by [Graco Inc.](#), a manufacturer of fluid handling equipment, as one of their Top 20 Distributors for protective coatings and/or foam and polyurea equipment for 2014. The distributors named to Graco's 2014 list, including LINE-X, were selected based on the total of their equipment purchases from Graco during 2014.

"As a global leader in spray-on protective coatings, our goal is to continuously provide the highest quality and most reliable materials available to our nationwide network of franchises and customers across the nation," said Kevin Heronimus, CEO of LINE-X Protective Coatings. "LINE-X is thrilled to receive the honor of being one of Graco's top distributors for 2014 and we look forward to continuing our relationship in bringing the best products and services to the market."

For nearly 90 years, Graco Inc. has been a leading provider of premium pumps and spray equipment for fluid handling in the construction, manufacturing, processing and maintenance industries. Graco works closely with distributors around the world to offer innovative products that set the quality standard for spray finishing, paint circulation, lubrication, sealant and adhesives dispensing, process application, and contractor power equipment.

LINE-X continues to lead the marketplace with innovative coatings that tackle some of the toughest challenges with creative and unique solutions to customers and are engineered to meet the needs of virtually any industry. With a full time, state of the art Research and Development Department, LINE-X continuously drives innovation to meet the needs of everyday consumers and industries such as trucking and railways, manufacturing, marine applications, defense industry, blast and force mitigation, petroleum and chemical, water waste treatment, and more. LINE-X protective coatings are designed to absorb impact, resist damage, and meet environmental and compliance requirements and have demonstrated these capabilities in projects such as fire and SWAT trucks, police shields and ballistics plates, amusement park waterslides, heavy machinery, and food processing facilities. LINE-X Protective Coatings is committed to leading industries that utilize spray-on applications and expanding to additional locations across North America.
